AUTOMATED DATA ANALYSIS REPORT

Dataset: **sample_sales_data.csv** | Generated on: 2026-09-09 08:07:33 UTC

1. Executive Summary

This automated report synthesizes structural, statistical, and data quality evaluations for dataset **sample_sales_data.csv**. The dataset contains **150** rows and **8** columns. An overall Data Quality Score of **99.6% (Excellent)** was assigned based on data completeness, uniqueness, and format validity.

2. Dataset Overview

Property	Value
File Name	sample_sales_data.csv
File Type	.CSV
File Size	7.89 KB
Total Rows	150
Total Columns	8
Upload Timestamp	2026-09-09T08:07:28.279287

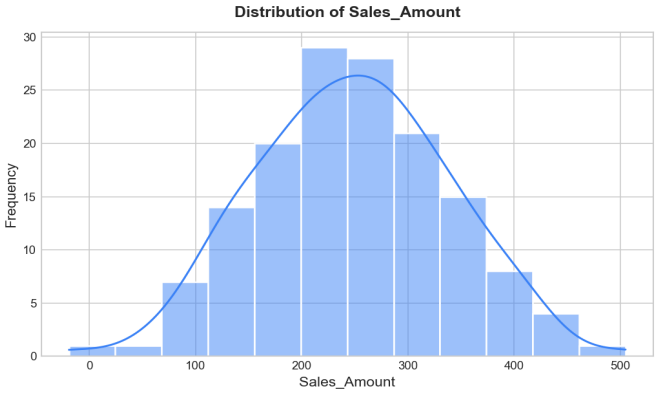

3. Data Quality Report

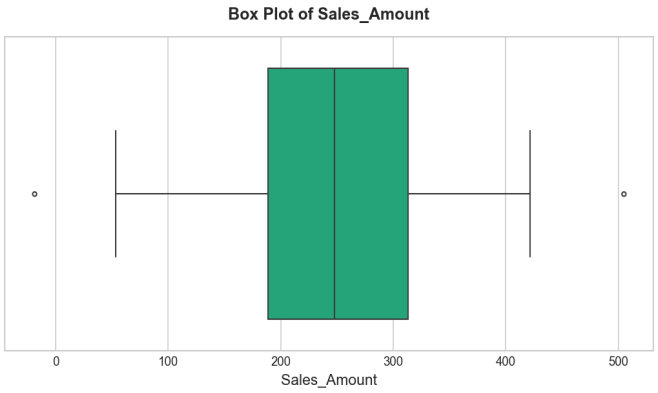

Metric	Score / Value	Assessment
Overall Quality Score	**99.6%**	Excellent
Missing Value Cells	5 (0.42%)	Completeness Metric
Duplicate Rows	1 (0.67%)	Uniqueness Metric
Invalid / Infinity Cells	0	Validity Metric
Detected Date Columns	Date	Temporal Features

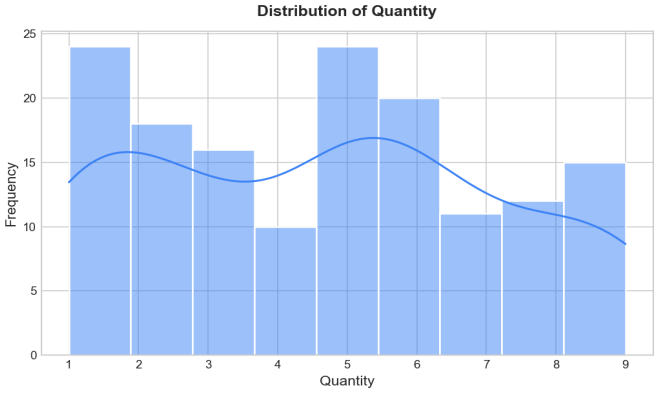

4. Statistical Analysis - Numerical Features

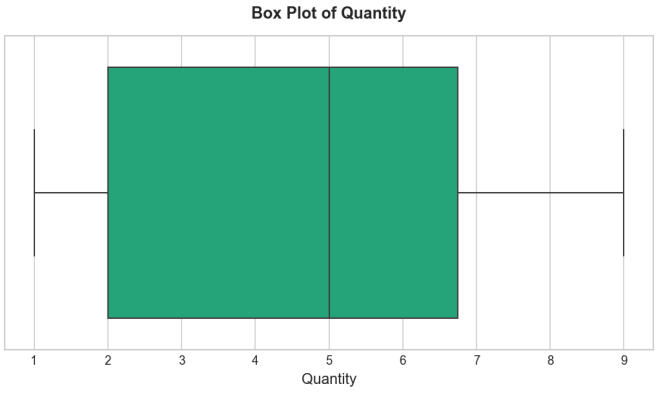

Column	Mean	Std Dev	Median	Min	Max
Sales_Amount	247.9978	90.0056	247.73	-19.13	504.96
Quantity	4.64	2.6069	5.0	1.0	9.0
Discount_Pct	0.131	0.0834	0.115	0.01	0.3
Customer_Rating	3.6871	1.0456	4.0	1.0	5.0

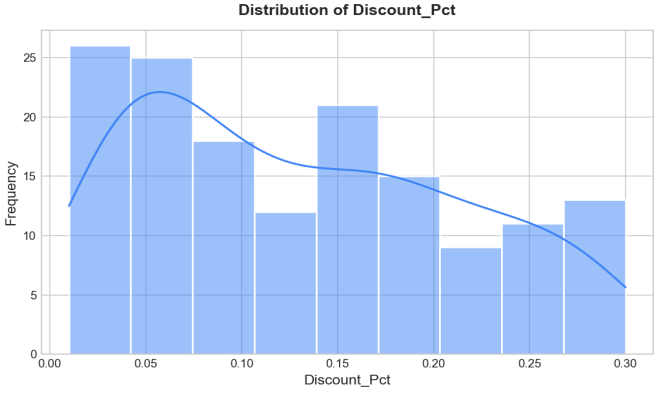

5. Visualizations & Charts

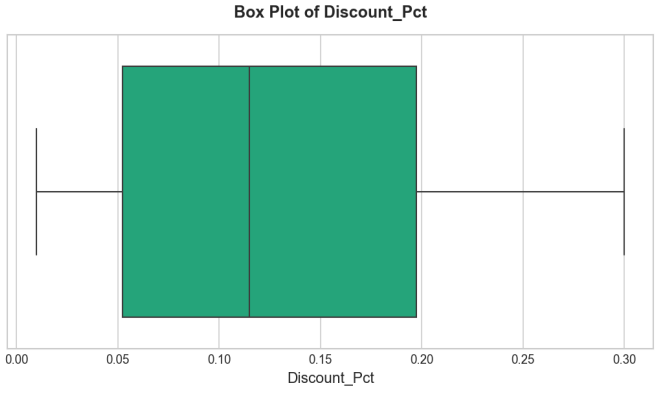

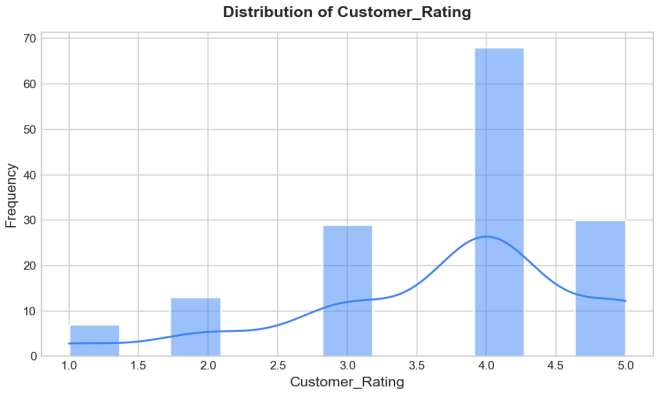

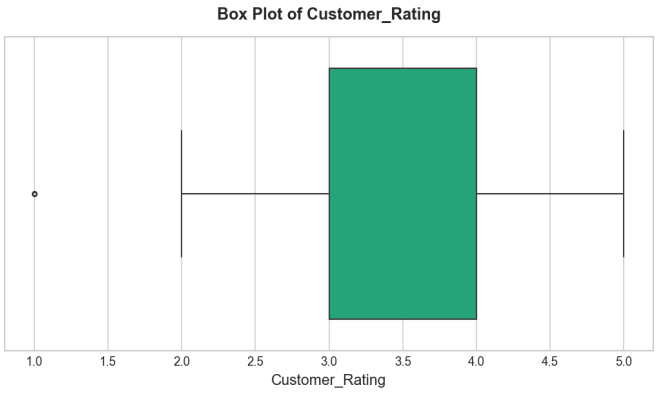

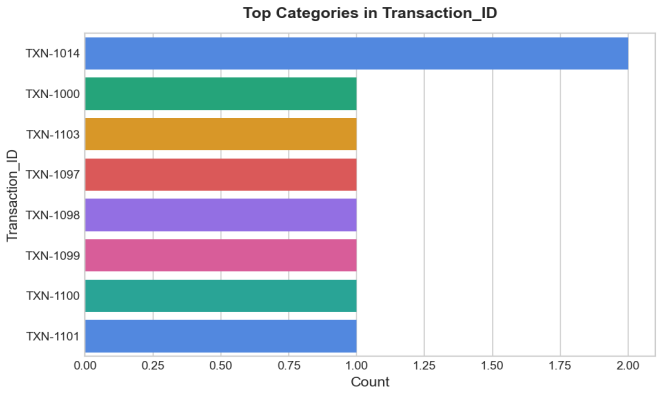

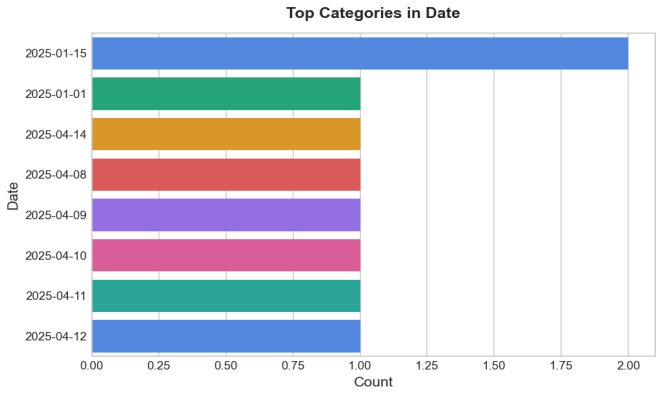

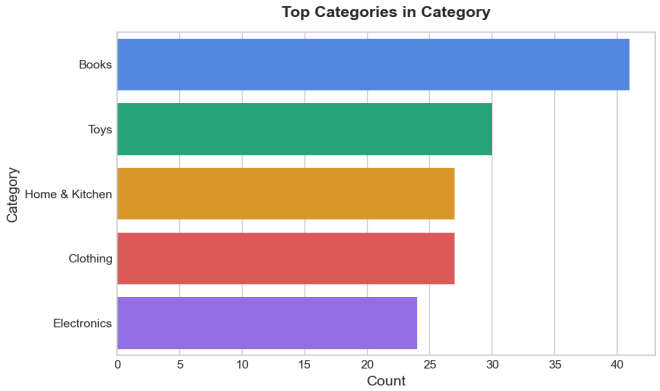

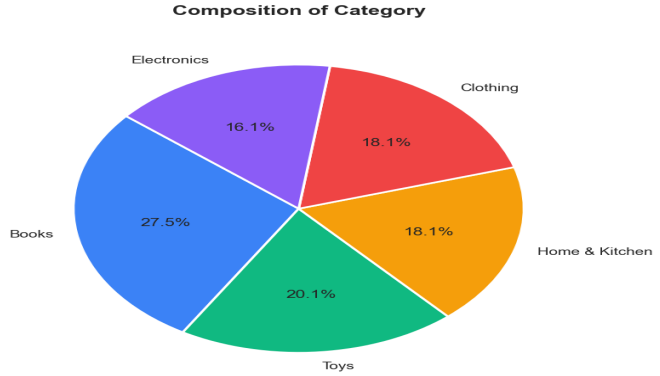

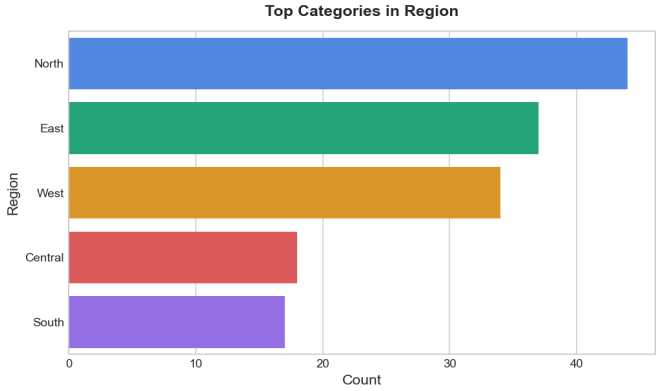

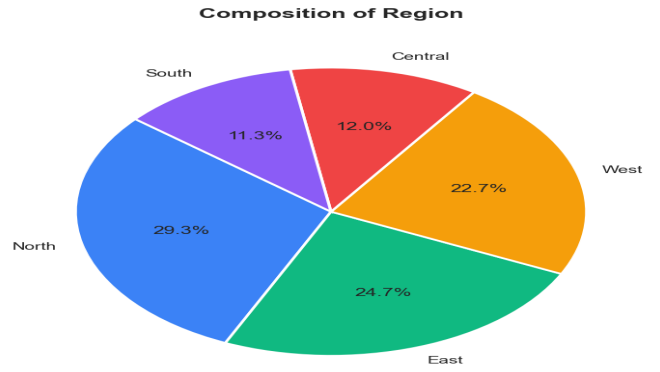

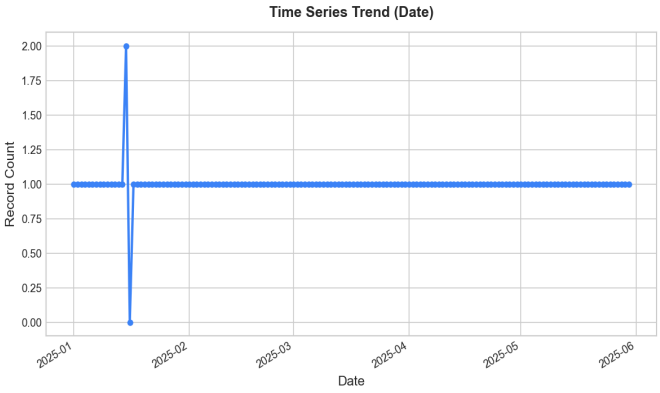

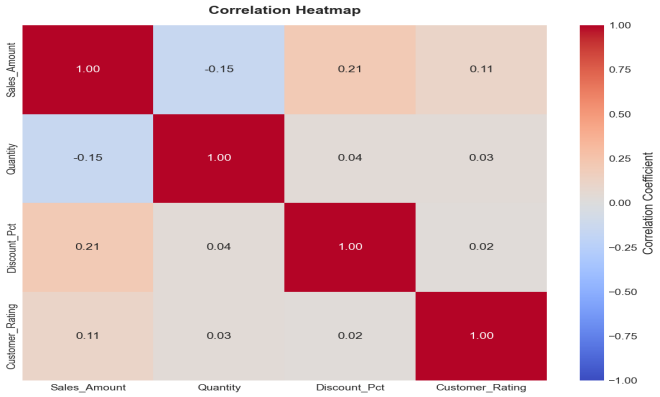

6. Conclusions & Recommendations

Based on the analysis of **sample_sales_data.csv**, the dataset exhibits a quality score of **99.6%**. Data completeness is high with negligible missing entries. There are 1 duplicate records that should be deduplicated. All statistical distributions and visualization graphics have been processed and cached for export.
